My Groups

Teachers have the ability to add Groups to their Learn360 account. This is a great way for teachers to keep their classes separate and organized. Teachers can also share content within their groups as well as create discussion forums.

My Assignments

Creating an assignment is a valuable resource that allows educators the ability to create a multi-media assignment complete with questions and customized media (video and/or audio clips). Similar to quizzes, assignments can not only be graded, but can contain media as well.

My Assignment

My Calendar

Every Learn360 user has a calendar located in their My Learn360 page under the My Calendar tab. For student users, this will be the only tab available. This calendar will be automatically updated with assignments, quizzes or events that a teacher or administrator adds to their groups (classes). This is where students will see if their teacher has assigned them a quiz or assignment. Teachers will also be able to see their distributed assignments and quizzes on their own calendar in order to keep track of what is due.
